Where Fun Learns from Experience

For more than 20 years, the O.L.A. Preschool has made learning fun as an N.E.A.S.C. accredited educational environment for 3 and 4 year olds.

Building the foundations a child deserves for advancement into becoming independent thinkers, using creative intuition, and maximizing potential is the goal of a staff with over 25 years in early childhood education.

The goals reached in the O.L.A. Preschool program afford each student the chance to be part of a community based on the foundation of Jesus Christ. These goals allow each individual student to gain the advantage of success.
